

Regulation

of "Inclusive Education Center" under Sumgayit State University

The name of the Center for Students with Physical Disabilities established in 2016 at Sumgayit State University (hereinafter - "University") is changed to Inclusive Education Center (hereinafter - "Center") in order to expand its scope of activity and meet modern standards. .

The university considers providing development opportunities and conditions for students with limited physical abilities, as well as their integration into education, as an important direction of its activities. The purpose of the University is to create opportunities for students with physical disabilities who are members of the University staff to use the services and educational programs of the University.

1. General provisions

1.1. This Regulation regulates the activity of the Center, which is a structural division of the University and was created for the implementation of development activities under the University. The center is being created within the framework of the European Union project "Integration of persons with limited physical capabilities into higher education institutions of the Republic of Azerbaijan" (ESFIDIP).

1.2. The center is a structure that provides development opportunities and conditions for students with limited physical abilities and supports their integration into education. The center helps students with physical disabilities use educational and training resources, develop their skills and abilities, and realize their potential.

1.3. In its activities, the Center is guided by the Constitution of the Republic of Azerbaijan, international legal acts, the Laws of the Republic of Azerbaijan "On Education" and "On Education (special education) of persons with limited health capabilities" and other normative legal acts, as well as this Regulation.

1.4. In its activities, the center is subordinate to the rector of SSU and is responsible.

1.5. The structure of the center and its coordinator are approved by the Rector of SSU.

1.6. The coordinator of the center attracts responsible persons to its composition in order to implement the activities of the center.

1.7. The material resources and equipment of the center are created within the framework of the project and are considered the property of the University after the

completion of the project. The activity of the center is also supported by various voluntary donations, programs and projects.

2. Goals and tasks of the center

2.1. The main goal of the center is to promote educational opportunities for students with physical disabilities and their integration into education as a whole.

2.2. The center has the following tasks:

- to create conditions for people with limited physical abilities to be involved in education;
- to provide students with limited physical abilities with educational opportunities and resources;
- organize trainings and courses for students with limited physical abilities on a voluntary basis;
- exchange experience with centers of the same profile;
- to conduct educational work among different layers of society in the direction of "understanding of the limitations of physical capabilities".

Additions and changes to the regulations are made according to the current legislation.
